

# Adding APN to your Xiaomi Phone

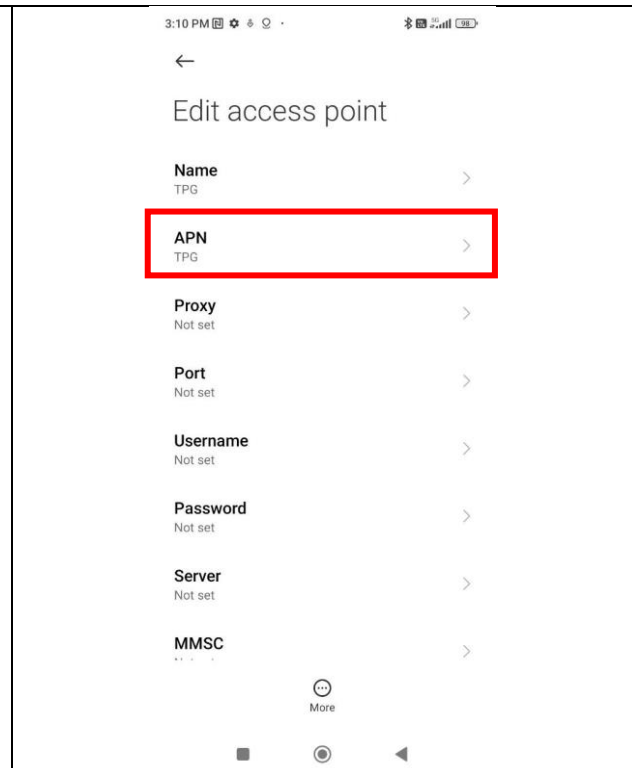

1. In the Settings page, tap on SIM cards & mobile networks

2. In the mobile network page, tap on the SIM card you wish to add the APN

3. After tapping into the SIM card info, tap on "Access Point Names"

4. Under the Access Point Names click on New APN at the bottom of the screen

5. Under APN, type in TPG and save (Can leave everything else blank)
